NOTES ON SOME OF THE MORE IMPORTANT FIGURES PRESENTED IN THIS VOLUME.

The practice of printing an abstract of notes on the figures published in each part of the Statistical Register has been found to supply a want, and is therefore continued in the present issue. It will be seen that once more the features of the prevailing conditions and influences during the period covered by these statistics are faithfully reflected in the changes of the figures. Distinct progress is the characteristic of the greater part of them, as might be expected since the advent of peace, and may no doubt still more confidently be hoped for in the future.

I gratefully acknowledge the assistance of all Government Officers and others who have kindly supplied the figures for the respective branches or business concerns under their supervision.

S. BENNETT,
Government Statistician.

Government Statistician's Office,
Perth, Western Australia,
13th February, 1923.

PART I.—POPULATION AND VITAL STATISTICS, 1921.

The Population for the year shows an increase on the previous year of 4,354 persons. This increase is almost entirely due to the excess of Births over Deaths, viz., 4,327.

The total arrivals for 1921 numbered 17,455 males and 11,878 females, whilst the departures numbered 17,650 males and 11,656 females, constituting a loss of 195 males and a gain of 222 females.

The total number of the departures includes 953 "unrecorded departures," as estimated by the Commonwealth authorities.

The Census taken on the 4th April, 1921, showed that the population of this State had in a preliminary estimate been overstated to the extent of 5,689 persons, which is of course a comparatively small discrepancy, ranging, as it does, over ten intercensal years.

The Births for the year under review were 7,807, viz., 3,988 males and 3.819 females, showing a total falling off on the previous year of 342. The Birth-rate for 1921 was 23.4, as against 24.7 for 1920. Illegitimate Births numbered 314, Births in Public Institutions 1,009, and Still-births, which are not included in the above figures, 225, whilst the number of Legitimations registered amounted to 41.

The Deaths for 1921, 3,480, show an increase on the previous year of 92, the sex-distribution being 2,209 males and 1,271 females, as against the 1920 figures of 2,161 males and 1,227 females.

The death-rate for 1921 was 10.4, as against the previous year's 10.3. The infantile death-rate, 78.3 per thousand births, exceeded the previous year's figures of 66.1, an increase of over 12 per thousand births.

The figures relating to the deaths of infants under one year of age were not of a very satisfactory nature, the 1920 figures being 539 as against 611 in 1921. The months of April, May, and June were responsible for a heavy mortality. The infantile mortality rate for May reached the exceptionally high figure of 126.7. The main causes of this were gastro-enteritis, whooping cough, diphtheria, and other diseases of early infancy.

The principal causes of death are as follows:—Diarrhœa and enteritis, 302; diseases of the circulatory system, 297; cancer, 278; tuberculosis of lungs, 277; senility, 268; pneumonia and broncho-pneumonia, 223; influenza, 58; diphtheria, 44; whooping cough, 58.

There was a falling off in the marriages celebrated, 1920 being the record for the State, when 2,931 were registered, whilst for last year the registrations amounted to 2,656, the rate being 8.0. Marriages celebrated by Ministers numbered 2,235, and District Registrars performed the ceremony on 421 occasions.

Naturalisations numbered 135, as against 63 in 1920. The figures include 29 Jugo-Slavs, 20 Germans, 13 Greeks, 17 Italians, and 10 Russians.

In connection with the Vital Statistics of the metropolitan area, it must be noted that its population at the census of 4th April, 1921, numbered 75,097 males and 79,866 females. On 31st December, 1921, the figures were estimated to be 74,115 males and 81,477 females, the *means* for the year ended 30th June. 1922, being estimated at 74,291 males and 81,648 females.

PART II.—PUBLIC FINANCE, 1921-22.

Public Debt, Sinking Fund, Revenue, and Expenditure have this year been shown for a series of ten consecutive financial years, ending 30th June, 1922. Loan Expenditure is given *ab initio* to 30th June, 1916, and thence in separate financial years to 30th June, 1922. The Receipts and Expenditure of the Government Property Sales Fund for the financial year are published, together with the totals at the beginning and at the end of that period.

It may be specially noted that the average nominal interest payable on the Public Debt on 30th June, 1922, was 4.20 per cent., whilst the average rate of the interest borne by the Sinking Fund securities was, on 31st March, 1922, 3.77 per cent. Two returns of the Income Tax collected during 1920-21 show the numbers of taxpayers, their total incomes, and the amount paid, classified respectively according to incomes and occupations.

PART III.—ACCUMULATION, 1921-22.

Cheque-paying Banks.

The number of such Banks operating in this State during 1921 was 9, an increase of one on the previous year, viz., the English, Scottish, and Australian Bank, Ltd. The National and the Commercial Bank reduced their number of offices in this State by one each during the year.

The rates of Exchange on Drafts and Bills, during 1921, on the other States of the Commonwealth and New Zealand, did not vary from those of 1920, but the rates on London and 60 days' sight on London showed considerable fluctuations. Discount on Bills showed no alteration on the previous year; Interest on overdrafts ranged from 5 to 8 per cent., as against 6 to 8 per cent. during 1920; and Interest on Fixed Deposits was raised by ½ per cent. during the first two quarters of the year for each of the fixed periods of deposits.

The total of the average liabilities for 1921, £12,537,367, is less by £297,088 than the previous year, whilst the Assets, £16,344,146, are more by £179,574. The amount on Deposit was £12,001,778, or £369,042 less than in 1920.

Savings Banks.

In the ordinary State Savings Bank for the year ended 30th June, 1922, there were 224 offices, which received 399,881 deposits, amounting to £5,276,218, whilst the number of Withdrawals was 384,221, amounting to £5,572,830, or £295,612 in excess of the Deposits. The amount of Interest allotted for the year was £186,683. The accounts opened during the year numbered 17,836, and those closed 13,914, leaving 141,844 remaining open, which had to their Credit at the end of the year £5,736,319, or an average of £40.441. The percentage of depositors to population was 41.77. The amount to the credit of all depositors, including those in the Schools Penny Savings Bank, was £17.076 per head of the estimated population. In the Schools Penny Savings Bank for the same period there were 519 Deposit-receiving Schools, and 330,160 Deposits were made, amounting to £33,598, the number of Withdrawals being 15,429 for £27,036, leaving an excess of deposits over withdrawals for the year of £6,562. The amount of interest allotted during the year was £1,481. The number of accounts opened was 6,859, and those closed 3,822, leaving 38,400 remaining open, which had to their credit at the end of the year £61,133, or an average of £1.592. The percentage of Depositors to School children on the roll was 76.27, and the average amount to their credit, per head of school children on the roll, was £1.214. The total Assets of the Savings Bank amounted to £5,858,726, which includes £5,797,452 due to Depositors, and the amount invested was £5,297,129. The Gross revenue was £255,550, of which £188,164 was allotted to Depositors for interest. In the Commonwealth Savings Bank in this State for the year ended 30th June, 1922, the number of offices open was 230, exclusive of receiving offices. The number of Deposits received was 159,505, for £2,032,159, and the number of Withdrawals was 176,562, for £1,868,326, leaving an excess of Deposits over Withdrawals of £163,833. The amount of interest allotted to Depositors during the year was £59,561. The number of accounts opened was 9,812, and those closed numbered 5,734, leaving 57,261 remaining open, which had to their credit at the end of the year, £1,961,865, or an average of £34.262. The percentage of depositors to the population was 16.87, and the average amount due to depositors was £5.779 per head of the population.

Life Assurance.

There are 14 Life Assurance Companies operating in this State, or two more than in the previous year, viz., The Producers' and Citizens' Co-operative Assurance Company of Australia, Ltd., and The Southern Cross Assurance Company, Ltd. Four of the above companies also do Industrial business. The returns for the latest financial year supplied show that their Assets were £378,722,403, of which £4,359,097 was in Western Australia; their Ordinary Revenue was £68,460,179, and Expenditure £55,560,890; Industrial Revenue £2,423,066, and Expenditure £1,244,404.

The Ordinary new business transacted in Western Australia during the year was, for Assurances 5,729 policies for £1,936,581, with single or annual premiums amounting to £70,057, and for Endowments 1,579 policies for £302,608, with single or annual policies amounting to £14,549. The Ordinary business existing in Western Australia at the close of the financial year was: for Assurances, 38,405 policies for £11,502,801 (sum assured); Endowments, 4,254 policies for £588,538 (sum assured); Annuities, 29 policies for £1,547 in annuities.

The increases in the policies existing at the end of the financial year were: for Assurances, 2,751 policies for £1,053,673; Endowments, 1,029 policies for £217,839; and Annuities, one policy for £180 per annum.

The Industrial New business transacted in Western Australia during the year was: for Assurances, 14,364 policies for £689,960, with annual premiums amounting to £41,834; and Endowments, 374 policies for £24,336, with annual premiums amounting to £1,509. The Industrial business existing at the close of the financial year was: for Assurancess, 66,829 policies for £2,261,518 (sum assured); and for Endowments, 2,650 policies for £87,750 (sum assured). Assurances show an increase over the existing business for the previous year of 5,043 policies, and £298,852 sum assured. Endowments, however, show a decrease of 184 policies, but an increase in the sum assured of £5,720.

General Insurance.

The total revenue from General Insurance was £563,216, of which £556,185 was received in premiums. The disbursements were:—for Losses, £341,919, and Management, £251,149, or a total of £593,068, which amount is £29,852 in excess of the revenue received. The increase in revenue over the previous year was £18,006, and in expenditure £193,854.

Friendly, Building, and Co-operative Societies, and Industrial and Trade Unions.

There were, at the end of 1921, 15 Friendly Societies, with 18,945 Benefit Members, 3,196 of whom received Sick pay amounting to £16,375. The total Revenue was £97,410; Expenditure, £78,641; and total Funds, £313,131. There were also 22 Specially Authorised Societies, with a total revenue of £13,327, an expenditure of £13,170, and total funds of £15,605.

Fifteen Building Societies were in operation during 1921 with 5,797 members, holding 19,914 shares. Loans were granted to the extent of £76,165, and repayments of £68,723 were made. The Assets of the societies amounted to £223,902, of which £215,467 was for Mortgages. Twenty-two Co-operative Societies were also doing business, with a membership of 6,408. The total Sales amounted to £305,041, and the Expenditure to £294,663. The Assets were £79,933, of which £42,612 was also for Mortgages.

There were 189 registered Industrial and Trade Unions at the end of 1921, with 36,293 members; the total income was £66,059, and the Expenditure £58,975.

PART IV.—INTERCHANGE, 1921-22—TRADE AND TRANSPORT STATISTICS.

This Part of the Statistical Register deals principally with the Trade, Transport, and Customs and Excise Revenue for the year ended 30th June, 1921. The year, like the previous one, being still under the influence of the disorganised conditions (the aftermath of the War) of the commercial, shipping, and financial world, the records naturally reveal the results of those conditions during the period in question. The increase of the mean population of the State between 1918-19, the closing year of the war, and 1920-21 is but 20,000, while the increase in the value of importations of merchandise during those three years, rising, as it does, from approximately eight millions in the former year to somewhat below fifteen millions in the latter, is so entirely disproportionate to the former that it can only be mainly attributed to causes outside the normal requirements, in goods, of the population.

Following are the figures:—

Turning to the Origin of the Imports, it will be seen that, in most cases, the countries whose produce we were consuming at the outbreak of war still maintain their position:—

In the Export Tables it will be seen that, unlike the imports, a considerable shrinkage has taken place since the closing of the preceding year, the inference being that the large accumulation of the country's production during the war period has now been despatched to its destination. It will also be noticed that the aggregate Exports for the three years exceed the Imports by a sum of four millions. It must, however, be borne in mind that, while the latter consist entirely of merchandise, the exports contain gold specie to the value of nearly ten millions, and consequently the value of the merchandise exported is considerably less than the importation.

Shipping.

Here it is satisfactory to note the gradual restoration of Tonnage to the level of the pre-war period. The figures speak for themselves:—

Period.	No. of Vessels.	Tonnage.
1913	879	3,032,521
1917–18	312	1,094,000

Customs and Excise.

While the steady advance in Revenue is satisfactory, it must be remembered that a fair comparison cannot be drawn between the years, owing to variations in the rates of duties during the period.

The figures are as follows:—

Period.	Customs.	Excise.	Total.
	£	£	£
1914–15	764,521	117,012	881,533
1917–18	396,835	170,316	567,151

Other Tables explicitly set out the transactions of the Fremantle Harbour Trust, Bunbury Harbour Board, and Shipping Offices, the Statistics of Wrecks and Casualties, Railways and Tramways, both State and Private, and the Post and Telegraph Department's returns as affecting this State.

Part V.—LAND SETTLEMENT, AGRICULTURE, LIVE STOCK, AND METEOROLOGICAL STATISTICS, 1921-22.

Land Settlement.

The total area of land alienated was, on the 31st December, 1921, registered at 9,425,729 acres. The area in process of alienation was 15,495,302 acres, and the area held under lease or license 263,129,281 acres, 259,381,030 acres of which were held as pastoral leases. During the year 1921, town and suburban lands to the extent of 909 acres were sold by public auction, and 2,253 crown grants were issued for holdings totalling 460,367 acres; 719 applications were approved for 377,731 acres under conditional purchase, and 2,367 applications for other conditionally alienated lands were approved for 1,488,880 acres. The transactions under the Agricultural Lands Purchase Act show that an additional 913 acres were selected during 1921, making a total of 319,847 acres occupied at the end of that year, out of an available area of 328,857. acres. There were, as reported by the Statistical Collectors, on the 28th February, 1921, 16,541 holdings of alienated lands, with a total area of 17,609,270 acres, and 920 holdings held under lease or license, aggregating 176,880,688 acres. The improvements effected up to the above date on these holdings were as follows:—Area of land under crop, 1,901,680; artificially sown grasses, 18,441 acres; new ground prepared for the next season's cropping, 298,699 acres; land in fallow, 894,789 acres; previously cropped, lying idle, or used for grazing, 1,923,021 acres, and ring-barked or partially cleared land, 2,667,612 acres. The reported value of buildings (for sheltering stock, produce, and machinery) and implements and machinery was £4,437,178.

Agriculture.

The value of the production of all crops for the season 1921-22, £6,925,762, or £3.642 per acre, shows a drop as compared with the previous season of £1,806,395, or £1.196 per acre. This is mainly accounted for by the lowering of the market price of wheat since 1921.

The total acreage of cropped, cleared, etc., land during 1921-22, 7,704,242 acres, is in excess of that for the previous season by 120,970 acres.

As regards production of the principal crops, wheat 13,904,721 bushels, peas and beans 10,039 bushels, hay 368,720 tons, potatoes 13,605 tons, and onions 669 tons, show increases over the previous season of 1,656,641 bushels, 7,559 bushels, 104,476 tons, 237 tons, and 197 tons respectively, whilst oats, 2,019,603 bushels, and barley (malting and other), 85,857 bushels, have declined by 2,428 and 25,548 bushels respectively. The total acreage of orchards, 19,012 acres, is a retrogression from the previous season of 558 acres, and the production of pears, quinces, figs, and all stone fruits also shows reductions, but the production of all other fruits shows increases, the orange and apple crops being particularly heavy; the former, 172,582 bushels, is in excess of the previous crop by 19,808 bushels, and the latter, 538,175 bushels, by 137,290 bushels. Vineyards, 3,951 acres, occupy an area greater by 742 acres than that planted last year, whilst the production of drying grapes, 51,526 cwts., is also more, viz., by 1,712 cwts. The production of table grapes, 37,883 cwts., and wine grapes 23,034 cwts., is, however, less by 3,873 cwts. and 22,528 cwts. respectively. The production of raisins, 5,688 cwts., sultanas, 923 cwts., currants, 6,370 cwts., and wine, 153,299 gallons, practically remained stationary during 1921, the differences between the figures quoted and those of the previous year being very slight.

In the dairying industry, butter made, 2,658,153 lbs., and milk produced, 11,329,273 gallons, again show substantial increases, the former by 445,842 lbs., and the latter by 1,095,715 gallons; the production of bacon, 1,593,653 lbs., ham, 114,831 lbs., and pickled and salted pork, 184,955 lbs., have declined by 10,814 lbs., 20,723 lbs., and 22,758 lbs. respectively.

The value of production of poultry and eggs during 1921, £208,429, has advanced by £18,771 on the former year, and the production of honey, 196,440 lbs., is also in excess of 1920, viz., by 47,214 lbs.

The total number of persons permanently employed on farms and stations, during 1921, was 25,648 males and 8,952 females, the majority of whom were employed in farming. The nationalities of those employed were: white races, 23,044 males and 7,451 females; Asiatics, 513 males and 7 females; Aborigines, 2,091 males and 1,494 females.

The value of importations of articles such as might be produced here from the soil has, during 1921-22, shown a slight decrease on the previous year, the figures, £2,837,541, being £5,437 less. This is the first time a decline has been shown in the upward tendency of such imports since 1918-19.

Live Stock.

The numbers of Live Stock on 31st December, 1921, varied slightly from those of the previous year. Horses, 180,334, are an addition to last year's figures of 1,670, which is accounted for in the South-Western and North and North-Western portions of the State, the central and Southern portion showing a decrease of 1,750. Cattle, 893,108, are more by 43,305, which gain has been general throughout the State. Sheep, 6,506,177, show a slight decrease, viz., of 26,788. This loss is accounted for in the South-Western and Central and Southern portions of the State, the North and North-Western portion showing an increment of 136,019 head. Pigs, 63,001, have multiplied to the number of 2,420, an expansion mainly located in the South-Western portion. Mules, 1,160, and donkeys, 7,114, represent slight gains, and camels, 5,856, and goats, 30,352, slight decreases. The stock shown in breeding groups vary only very slightly from those of the previous year, breeding cows showing the most conspicuous advance, viz., 27,105 head. Lambing and calving were recorded more numerously, but in foaling there was a falling off.

Livestock slaughtered during 1921 were recorded as follows:—a falling off of 13,417 in cattle; sheep, an advance of 16,354; and pigs, a falling off of 2,669.

The value of Live Stock imported during 1921 was £193,729, and of those exported £100,155.

The total wool clip for the year, 40,702,089 lbs., is in excess of the previous year by 1,176,647 lbs. In addition, 5,598,952 lbs. of wool was exported on skins, which figures is also greater, by 1,409,762 lbs., than the quantity exported in a similar manner during 1920.

Meteorological Statistics.

Year 1921—Four cardinal features stood out in connection with the rainfall distribution for the year 1921. These were (1) the total failure of tropical rains in January; (2) the heavy "Willy Willy" downpour of the third week in February; (3) the phenomenally heavy rains of early winter, which made May, 1921, the wettest May on record, at least since 1877, and (4) the occurrence of good agricultural rains towards the close of the wheat-growing season. To a very large extent the year's totals in the various districts were accounted for by one or more of the three first-mentioned factors, while the fourth was of vital importance to the success of the harvest.

A glance at the rain map for the year showed that deficiencies were experienced in the Kimberley divisions and Northern Murchison, together with a few other localities, and excesses over the remainder of the State. The shortage was most pronounced in the neighbourhood of Derby, the total at that station falling 11.28 inches below the average; while the greatest excesses were met with at various centres along the North-West, West, and South-West coasts (*e.g.*, Roebourne, Onslow, Shark Bay, three stations near Geraldton, and several between Fremantle and the Leeuwin exceeded the normal by amounts varying from 10 inches, to 16.42 inches at Fremantle Signal Station).

The defect in the Kimberley Division was mainly due to the dry January, good February and March falls failing to make up the leeway. The concluding months of the year were also disappointing.

Heavy totals in the North-West and West Gascoyne were explained by the February "Willy Willy," and the heavy May rains, which extended to Northern areas in the latter half of the month, and lasted into early June. In fact, the only portion of the State entirely unaffected was East Kimberley. March was also a fairly good month over these regions, and some useful rains occurred in late July and early August.

Another important outcome of the May rains was the breaking of the drought in the Murchison, which, for practical purposes, had lasted in many districts since February, 1918. Although rain was not entirely absent, the monthly means being even exceeded occasionally, it fell in the form of light, isolated showers, and was of little

value in view of the parched condition of the country. A good down-pour on the 12th May reached the greater part of the division, and was followed by frequent showers during the ensuing four weeks. The remainder of the year was, however, very dry, save for two moderately good falls in August. From Nannine Northward deficiencies were noted on the annual totals; elsewhere the averages were surpassed by fairly substantial amounts.

Over the Coolgardie Goldfields from 50 to 75 per cent. of the year's rain fell between May 7th and June 14th. Apart from this period some partial monthly excesses were noted, but no general rains of importance occurred.

Turning to the South-West division, and speaking more particularly of the agricultural areas, the early months were dry, save for two partial summer rains. The May downpour commenced with the month, and lasted almost continuously until mid-June. Then followed a seventeen day interval, broken only by a few showers, and June closed with aggregate falls rather below normal. Wet weather returned with July, and lasted until 21st August, but the falls, though frequent, were light, and both months recorded decidedly lighter totals than usual. A perod of fine weather, clear skies, and Easterly winds now set in, and anxiety lest the winter rains had suddenly ended was expressed in many quarters, but this was terminated by fine agricultural rains on September 5th and 7th. Another general fall occurred on the 17th, but was followed by a second lengthy dry spell. On October 13th good rains again swept through the wheat belt, and frequent showers lasting until early November brought the wheat-growing rains to a close. In December, however, thundery rains, with some heavy falls and an occasional hailstorm, occurred on various dates.

Taking the year as a whole, the agricultural areas fared well, and despite the fact that several localities recorded deficiencies, the year's totals were nowhere inadequate. The rainfall distribution was not ideal, but on the other hand it was in no particular seriously defective. The early months were too dry, and involved water-supply difficulties. The heavy May rainfall caught farmers unprepared. Ploughing and cropping operations were not completed, and their resumption when the rains eased off in mid-June was not everywhere opportune, with the result that the acreage sown was not up to expectation. On the other hand the downpour gave the season an excellent start, and the relative warmth of the winter months favoured vigorous plant growth. The dry spells of late winter and autumn occasioned much anxiety, and no doubt somewhat reduced the yield, but probably also checked a possible tendency for the development of rust and other diseases. The importance of the rains of September 7th and 17th, and October 13th, rested in their opportune occurrence, rather than in the volume of the actual falls. Hail in December was destructive in a few isolated localities, but, taking the whole harvest into consideration, the damage was almost negligible.

PART VI.—INDUSTRIAL ESTABLISHMENTS, 1921 (EXCLUSIVE OF MINES).

The increase in industrial establishments shown in the Statistics of the previous year has been maintained, 1,099 "factories" having supplied returns for 1921, just one hundred more than the previous year, although it may be noted that four out of five of the "new" establishments were (*see* Table 8) ones having "under 10 hands." There were altogether in these factories employed (exclusive of home workers) 16,406 male and 2,692 female employees. Of these only 649 were recorded as being under 16 years of age. Owing no doubt to cheaper power being procurable, electric power motors are now being largely used, 10,828 horse power being available in the various establishments during 1922.

In a comparison of the increases since the pre-war period, we find that in 1913 £2,337,657 (32 per cent. of the value of the output) was paid in salaries and wages. In 1921 the amount was £3,568,072 (28 per cent.). The comparison of amounts paid to employees in the last eight or nine years is a fairer test of the increased, or decreased, importance of the industries than the relative values of material or output during the same period would be, as there have been recently many fluctuations in prices of materials, affecting both these latter.

In Table 5, where the relative values of fuel, wages, and material, also margin for profit, etc., are shown, it is seen that "material" now represents 57 per cent. of the valued output, instead of 46 per cent. as in the year before the "Great War." "Profits" have dropped from nearly 20 per cent. to 13 per cent. The total estimated capital value of land and buildings, plant and machinery invested in secondary industries in this State is now slightly *over* seven millions of pounds sterling.

Out of the 1,100 factories known to be working in 1921, 992 were situated in the "South-Western" portion of the State, and 685 out of that number were in the Swan (or Metropolitan) Statistical District.

Manufactures worthy of note during the year were:—1,496,258 lbs. of leather (exclusive of fancy) produced, 183,663,021 super. feet of timber sawn and hewn, 2,511,548 lbs. of confectionery manufactured, 5,531,954 gallons of beer and stout brewed, 229.582 pairs of boots and shoes made, also 36,085,694 B.T. units of electricity produced. It should be noted that the value of gross production in lime, plaster and cement works (including modelling works) rose to £104,268, and in asbestos works to £22,280 in 1921.

A new table (No. 26) has been inserted, showing the estimated value, etc., of general fisheries during the ten years 1912 to 1921.

There has been little change in the small number of white aliens and coloured people employed in "factories," and there are now less than 1,500 Asiatics employed in the pearling industry.

The tables of minimum rates of wages for ordinary adult workers and apprentices have been revised and brought up to the 30th June last. No marked or general decline in rates is observable, the tendency on the part of both employers and employed seeming to be to "mark time."

PART VII.—MINERAL STATISTICS AND WATER CONSERVATION, 1921-22.

This publication deals with—

(1.) Mineral Statistics for the year ended December, 1921; and

(2.) Water Conservation for the year ended 30th June, 1921.

The quantity of raw gold entered for export, *plus* that received at the Perth Royal Mint during 1921, was 553,731 fine ozs., valued at £2,352,098, or, if the average value of the Gold Producers' Association be taken, £2,935,693.

The total quantity produced in this State to date was 34,302,122 fine ozs. Dividends distributed out of profits made from this gold now amount to over 28 million pounds sterling.

Although the production of *Gold* was less in the year under consideration than in 1920, the quantity of *Coal* shows no decrease, 468,817 tons having been reported as produced during 1921.

There were, also, 6,116 tons of pyritic ore "reported" during the same year, in addition to 116,151 fine ozs. of silver and 2,156 tons of pig lead, which were *exported*.

The value of the principal minerals other than gold exported since 1850 now amount to:—

Tin (ore and ingot), £1,484,041,

Copper (ore, ingot, etc.), £1,660,643,

Lead and Silver Lead Ore and Concentrates, with Pig Lead, £1,218,788, and Silver, £552,075.

488 tons of Asbestos also, valued at £24,064, had been produced up to the close of 1921.

Batteries (including those of the Government), with 1,748 head of stampers, beside other crushing mills and treatment plants, treated 857,510 tons of gold ore. A number of 6,019 men were, on the average, employed during the year in the recovery of the precious metal.

The value of the machinery used was £2,157,074. At the State batteries and plants, 34,761 tons of gold ore and 54 cubic yards of tin ore were treated during the year, besides 27,161 tons of tailings and slimes, enabling gold to be won in many cases when it would not have been possible to do so by private enterprise.

There were also 36 crushing plants, and a total value of £357,308 of machinery used in mining other than gold.

£91,383,254 worth of coin had been produced up to last June at the Royal Mint in Western Australia.

As to *Water Conservation*, it may be noted that the Goldfields Water Supply has still an annual "consumption" of 1,153 millions of gallons, and the Metropolitan Scheme supplied 2,600 millions, which, however, included over 274 millions obtained from the Goldfields supply. The number of miles of water mains in the "Metropolitan" district is now 659, and the capital expenditure on sewerage and drainage has risen to £968,540. The "consumption" of centres such as Bridgetown, Collie, Cue-Day Dawn, Geraldton, Leonora, Meekatharra, and Pingelly, having separate water supply schemes under the control of the Public Works Department, are also given. A statement of water supplies on various Government Railways shows that 335,234,300 gallons were obtained from local sources of supply, outside those already mentioned.

PART VIII.—LAW, CRIME, ETC., 1921-22.

This portion of the Register shows the transactions of the Land Titles and Deeds Office up to 30th June last; the Supreme Court business to 31st December, 1921; to the latter date, also, figures relative to cases that came before Magistrates' and Higher Courts, besides the general business of Local Courts, Wardens' Courts, Licensing Courts, and Coroners' Courts; and finally an Abstract of the latest Gaols and Prisoners returns.

In the main, there is a slight retrogression in the transactions of the Land Titles Office, as exhibited by the figures, for the past financial year, the numbers and amounts of the Transactions being somewhat less than in the year before, although still largely in excess of those during the years preceding 1919-20. There was an increase in the declared Value of freehold land brought under the operations of the Transfer of Land Act, and also in the number of applications. In 1919-20 the applications numbered 48, the declared value being £35,959; in 1920-21 these were 40 and £81,331 respectively; and,

in 1921-22, 59 applications with a declared value of £120,881 were recorded. There was a decrease of 1,892 in the number of Transfers registered during the year under review, the figures for 1920-21 being 11,965, and for 1921-22, 10,073; the consideration expressed declined from £5,918,924 to £4,880,836 during the respective years referred to. The number of Freehold Leases registered decreased slightly, but there was an increased number of Crown Leases registered. The Revenue collected by the Department declined from £30,046 to £25,935, but this was largely compensated by a decrease in the expenditure of from £18,596 to £15,783; the Net Revenue, £10,152, thus showed but a small decrease from that of the previous year.

In the Supreme Court, the transactions during 1921 under Common Law were somewhat above normal, the increases on those of the year 1920 in the following cases being the most noticeable: Writs Commencing Actions from 577 to 625; Judgments signed and entered, 174 to 288; Foreign Judgments, 308 to 442; and Causes tried without a jury, 418 to 517. Probates and Letters of Administration increased, the figures approximating to those of the years 1917 and 1920 in number, whilst in the amounts there was a large increase on any previous year, those for 1921 being the highest yet recorded. During 1921, the Probates granted numbered 723, and the amount involved was £2,004,625; Letters of Administration, 337, and amount £251,970. The 1920 figures were: Probates, 618, £1,377,037; and Letters of Administration, 330, £230,165.

The business relating to Bankruptcy does not, on the whole, vary greatly from that of the preceding year. The figures for 1921 were: Petitions 30, Assets £35,899 and Liabilities £43,944.

Eighty-nine Local Companies, with a capital amounting to £2,143,171, were registered during the year, as compared with 131, and Capital £5,119,279, in 1920. The number also of foreign Companies registered was considerably less, there being only 30, as compared with 108 in the previous year.

The number of Intestate Estates reported, and Amount Collected, has shown a steady decline for the past four years; the figures for 1918 were: Estates 940 and Amount £63,151; those for 1921: Estates 386, Amount £31,862.

The Crime Returns for 1921 show a slight increase (246) in the total of distinct persons brought before the Courts, as compared with the year 1920. The increase was, however, confined to male offenders. The total number of persons who appeared before the Courts during 1921 was 8,686, which was considerably less than during any of the five years prior to 1917, when the numbers ranged from 12,031 to 12,959.

For the 10,775 offences charged against these persons during 1921 (excluding Aborigines) 9,675 convictions, 9,605 in the Lower and 70 in the Higher Courts, were recorded, of which (exclusive of drunkenness itself) 1,256 were attributable to drink. The proportion of persons to offences was similar to that of 1920, in the case of both male and female offenders. Offences committed against the Person, Property, and Currency remained normal, the higher figures being confined principally to breaches of good order, in which class increases of 472 offences and 485 convictions were recorded, whilst (excluding drunkenness) there was a decrease of 219 in the cases attributable to drink. Drunkenness increased by 125 males, and decreased by 75 female cases, with a similar variation in the convictions. The corresponding figures for breaches of Good Order for the years 1920 and 1921 were: Cases 6,821 and 7,293; Convictions 6,488 and 6,973; Due to drink, 1,222 and 993 respectively. These figures, whilst showing, except as regards their being attributable to drink, a steady increase in this class of offence, were still considerably less than those of the year 1914, when 11,342 offences, and 10,898 convictions with 2,102 cases (exclusive of drunkenness) due to drink, were recorded. The total convictions (excluding neglected children, and Lunacy cases) in all Courts numbered 9,861, or 2.96 per cent. of the mean population. The corresponding figures for the year 1916 showed 13,944 convictions, or 4.46 per cent. of the mean population.

The Peremptory commitments to prison were 876 in the Lower and 54 in the Higher Courts; whilst also 75 Aborigines were committed to prison from the Lower, and 11 from the Higher Courts. The percentage of all commitments to all convictions was 9.31. The convictions of Juveniles (under 18 years) were less than in 1920, principally due to a decreased number of cases of stealing. The total of juveniles convicted was 282, as compared with 398 in 1920. The number convicted under 16 years has been on the decline during the last three years, during which there were recorded the following: 1919, 371; 1920, 271; and 1921, 168.

The number of Destitute and Neglected Children dealt with by the Children's Courts during the past year approximates closely to that in 1920, there being 352 in 1921 and 330 in 1920. In 1919 the number was 460.

In the Local Court cases an increase in the number of plaints issued and amount recovered, which had been very consistent during some four or five years, is disclosed by the 1921 records; and in the Wardens' Court figures a similar tendency to increase is noticeable.

The total number of Liquor Licenses granted during 1921 shows a decrease as compared with those of 1920; whilst the more permanent forms of License have declined somewhat, the reduction is, however, mainly due to a reduced number of the temporary description.

The Statistics of the Gaols proved to be fairly consistent with the experience of past years.

PART IX.—HOSPITALS, CHARITABLE INSTITUTIONS, ETC., 1921-22.

In the Government Hospitals, situated in the principal centres of the State, the number of patients admitted for treatment for the year ended 31st December, 1921, was 5,741, which, with those remaining in from the previous year, viz., 507, makes a grand total of 6,248 persons treated. Of this number 5,381 were discharged as either Cured, Relieved, or Unrelieved, whilst 471 died, leaving 396 patients in the Hospitals for further treatment.

The average daily number resident in these Hospitals was 471.1, with an average residence of 27.5 days per patient.

The attendance for Out-door relief, so far as supplied, amounted to 3,384 distinct patients, whilst the total re-attendances numbered 12,381.

The figures for the Assisted Hospitals for the same period are as follows:—8,605 patients admitted, and remaining from previous year, 495, or a grand total of 9,100 treated. Of this number 7,753 were discharged as either Cured, Relieved, or Unrelieved, whilst the deaths numbered 858, 489 patients remaining in for further treatment. The average daily number resident was 516.4, with an average of 20.7 days per patient. The attendance for outdoor relief, so far as shown, numbered 16,732 distinct patients; whilst the total re-attendances numbered 70,170.

The most noteworthy Diseases, treated in both Government and Assisted Hospitals respectively, were Diphtheria 322 and 477, with deaths 11 and 20; Typhoid Fever, 98 and 211, deaths 9 and 24; Influenza, 174 and 256, deaths 4 and 2; Tuberculosis of Lungs, 446 and 80, deaths 143 and 20; Cancer of all kinds 49 and 223, deaths 20 and 86; Purulent Infection and Septicæmia 117 and 159, deaths 2 and 4; Pneumonia and Broncho-Pneumonia 147 and 375, deaths 29 and 90; Bronchitis Acute and Chronic 77 and 173, deaths 4 and 6; Diseases of the Nervous System 243 and 860, deaths 27 and 66; Diseases of the Digestive System 622 and 1,460, deaths 46 and 187; Puerperal Condition 705 and 380, deaths 4 and 9; and Diseases of the Circulatory System 211 and 300, deaths 37 and 50.

The number of patients in the Hospital for Insane at the close of the year 1921 was 1,097, a decrease from the previous year of 64. The deaths numbered 92 as against 98 for 1920.

In the Homes for the Destitute, the figures relative to inmates at the end of the year show an increase of two patients, being 664 against 662 for 1920.

The number of children in Orphanages and Industrial Schools was 923, as against 979 for the previous year.

Aborigines and half-caste Aborigines in Native Institutions and Missions numbered 524, as against 548 in 1920.

The number of State Supported Children was 811 on 30th June, 1921, and 776 on 30th June, 1922.

An Abstract of annual receipts and payments of the various charitable institutions not under immediate control of the Government, concludes this part of the Register.

PART X.—EDUCATION, SCIENCE AND ART, 1921-22.

The information contained in this part includes financial figures relative to expenditure on the Education Department, Public Library, Museum, and various scientific societies and boards, to the 30th June, 1922, and other information for the most part to earlier dates.

As regards the expenditure on the Education Department from *Consolidated Revenue*, the Government had to provide over £50,000 more than in the previous financial year, while there was a slight *decreasee* in the amounts supplied to general educational, scientific and literary funds. The University, however, received an addition of £900 to its annual subsidy.

"Experiment Farms" accounted for £10,220 of the total contributions for general scientific purposes.

The receipts from rent, etc., paid to Revenue in the Education Department brought in nearly £15,000 during the financial year 1920-21; but the average cost (including administration) rose to practically £10 per head. The average attendance of scholars in primary schools during the same period was 41,989. In 1921 the number of students at Government Secondary Schools was 687, and at Private Schools 6,496. The prosecutions for non-attendance at school showed a gratifying decrease, only 83 being recorded during the year. Of these, convictions were obtained in all but two cases. "Full" or "partial" exemption from attendance was obtained in 128 cases.

The Continuation classes' enrolment shows a decrease, but the technical schools are attracting an increasing patronage, nearly 3,500 young people being in attendance at these centres of education. The manual training and household management classes are also being largely availed of.

One hundred and ninety-five male and 150 female Matriculated students attended at the University of Western Australia during 1921, whilst the certificates granted, as the result of examinations, totalled 608 general ones and 428 for music.

The Public Library had 119,258, and the Museum and Art Gallery 76,961 visitors during the year. The number of books in circulation in the former institution (including travelling library) was about 130,000. There were calculated to be as many, if not more, volumes (approximate figures 150,000) in the various mechanics' and literary institutes in the State

The Zoological Gardens' management received £6,126, and spent £5,853 in 1921-22—a slight increase on the figures for the preceding year.

At the School of Mines, Kalgoorlie, £105 fees were received, and £7,231 was spent, during the twelve months.

It is also worthy of note that 2,171 awards for proficiency in Life-saving, etc., were awarded to Western Australian pupils during the year ended 30th June last.

PART XI.—LOCAL GOVERNMENT, 1921.

Municipalities.

The number of Municipalities (22) was one less for the year ended the 31st October, 1921, than on the same date in 1920. Coolgardie Municipality was dissolved by Order in Council as from July 1st, 1921. The total population as disclosed by the Census of the 4th April was 166,222.

The Capital Value of rateable property, including improvements, £29,947,232, was £3,666,826 in advance of the previous year; the Annual Value, £1,673,545, had similarly increased, by £123,411, and consequently, owing to this increase and the higher rates levied in the £, the amount payable in respect of Rates is greater by £67,523. The total revenue, £782,655, was higher than the previous year by £119,483. The figures for 1921 include loans raised during the year, £81,373, as against £58,533 for 1920. The expenditure, £749,681, exceeded that for the preceding year by £83,858.

The amount of loans current on 31st October, 1921, £1,782,471, was in excess of that of 1920 by £36,563, whilst the Accrued Sinking Funds for the redemption of loans, £366,839, had increased by £23,973.

The total length of Roads and Streets in existence on 31st October, 1921 (1,140 miles 1 chain), was 5 miles 46 chains more than in the previous year.

Road Districts.

The number of Road Boards was 119 on the 31st October, 1921, as against 118 for the previous year.

The total population, as disclosed by the Census of 4th April, 1921, was 160,970.

Some of the Boards rate on the Annual Valuation and some on the Unimproved Capital Value, so that no really satisfactory comparison of the figures can be made with previous years.

The total revenue, £274,735, was £16,955 above that of 1920. The figures for 1921 include loans raised during the year, £16,720, as against £22,150 for 1920. The expenditure, £285,216, had risen by £41,851.

The amount of loans current on 30th June, 1921, £154,411, exceeded that of the previous year by £14,226, and the accrued Sinking Fund for the redemption of loans, £16,086, was higher also, the difference amounting to £2,948.

The total length of Cleared, Formed and Metalled or otherwise constructed roads (36,505 miles 60 chains) was greater than the year before by 1,874 miles 9 chains, and the following numbers: Bridges 965, and Culverts 8,730, show increases respectively of 5 and 375.

Local Boards of Health.

There were 23 Municipal and 103 other Boards of Health in existence in 1920-21, thirteen of the latter being inactive during the year. The combined revenue, £133,021, was larger than its Annual predecessor by £9,376, and the expenditure, £131,400, also showed an excess of £8,825.

Fire Brigades.

The number of Fire Brigades, 42, was the same as in the previous year, and the number of permanent firemen, 115, was five more, whilst the number of Volunteer Firemen on the roll, 573, had risen by 18. The revenue, £40,630, had risen by £10,530, and the expenditure, £35,511, by £2,088.

PART XII.—MISCELLANEOUS, 1921-22.

The first subject dealt with in this publication is that of Parliamentary Rolls and Elections, etc., giving the figures to 30th June, 1922, for the State Government, and for that of the Commonwealth as far as this State is concerned. Informaion relative to the first Local Option Poll in this State, held on 30th April, 1921, and details of

the Voting in each Licensing District, including that on the question of State Control of Licenses, are given. It will be noticed that the names on the State Rolls had increased during the previous twelve months by 4,046 in the case of the Assembly, and by 1,858 in that of the Council Rolls. The data of the Commonwealth Rolls disclose a small decrease of 59 in the number of Electors on the Roll since 30th June, 1921, the total being 167,017 on 30th June, 1922. The details show increases in the Dampier, Fremantle, and Swan Divisions, and decreases in the Kalgoorlie and Perth Divisions. A summary of the Senate Elections and Referenda from 1903 to 1919 is included.

The Workers' Homes figures are given in a combined return for the nine years ended 30th June, 1922. The total cost of the Approved Applications during the period was £739,923, being an addition of £56,416 to the accumulated total of 1921.

Newspaper publications in Western Australia, in 1921, numbered 94, which is one less than the previous year; 3 were dailies, 49 weeklies, and 30 monthlies.

The State Labour Bureau's Return shows that during the year ended 30th June, 1922, a total of 7,919 men and 2,988 women applied for employment, and for 4,770 of the former engagements were found, whilst 1,914 engagements in the aggregate were provided for the latter, including 1,257 Laundress-Charwomen. These figures disclose that 827 more men and 335 less women obtained employment through the Bureau's agency during the year than during the previous twelve months. The engagements for men were principally those of 1,949 Bushmen, 614 Farm hands, 561 Labourers, 336 Lads for Farms, 294 Handy men and Lads, and 221 Saw-mill hands. A table detailing the assistance rendered to applicants shows that during its eight years' operations the Bureau has advanced 14,789 fares, totalling in value £17,917, of which £14,083 has been refunded. In addition, assistance to 50 Goldfields lads and 177 men and women had been given during the year, the respective total amounts being £87 and £199, drawn from the funds of the Scheme for placing Goldfields lads on Farms and the Employers' Rail Trust Fund respectively. The rates of wages for the various engagements secured at the Bureau conclude this Part of the Statistical Register.

STATISTICAL VIEW OF NINETY-THREE YEARS' PROGRESS IN WESTERN AUSTRALIA, 1829 TO 1921-22.

This, the concluding portion of the Statistical Register for 1921-22, is an historical summary of Statistics which shows the progress of Western Australia from the year of first settlement.

The subjects with which this publication deals are mainly those presented more fully in the principal parts of the Register, viz., Population, Migration, Vital Statistics, Posts and Telegraphs, Consolidated Revenue and the Expenditure therefrom, Loan Expenditure, Public Debt, Lands, Agriculture and Live Stock, Gold and Coal production, Railways, the State Savings Bank, Shipping, Totals of Imports and Exports, and the principal Exports of the State, Wool, Raw Gold, Timber, Wheat, Flour, etc.

TOTAL PRODUCTION.

As no statement of the Total Production of the State is shown in any part of the Statistical Register, the following table is here appended :—

Estimated Value of Western Australian Production, 1914 *to* 1921.

* The mean population for the year is obtained as follows :—To the population at the end of the preceding year add four times the population on the 31st March of the year under review, twice the population on 30th June, four times the population on the 30th September, and the population on the 31st December, and divide the total by 12, which is the method now in use throughout the Commonwealth of Australia. Each quarterly mean is arrived at by adding together the number of the population at the beginning and at the end of the quarter and dividing the sum so obtained by two.

* Owing to the Commonwealth Government having discontinued the distinction between the State production and that of the other States of the Commonwealth, it is now impossible to show the oversea destination of locally produced exports in this table, as shown previous to the year 1911. In the case of the Interstate Transfers, however, the value of local produce exported to each State of the Commonwealth is shown in the summary of Table No. 6, page 103.

** Merchandise of Australian Origin previously exported and now returned to this State.

No. 5.—IMPORTS into the State of Western Australia during the Year ended 30th June, 1921.

Duties on British and Foreign Imports are collected under the provisions of the Commonwealth "Customs Tariff Act, 1902" (Edwd. VII., No. 14).

NOTE A.—On all British and Foreign Imports 10 per cent. has been added to the fair market value of the goods at port of shipment.

NOTE B.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles imported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import and Export Items into Classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed index of the items in alphabetical order.

No. 6.—EXPORTS of Merchandise from the State of Western Australia during the Year ended 30th June, 1921.

NOTE.—The "Quantity" columns are left blank in all cases where the quantities declared are packages of an irregular or unrecognised size, and consequently do not indicate the number, capacity, or weight of articles exported.

TRADE CLASSIFICATION.

Owing to the grouping of the Import and Export Items into classes, in lieu of the alphabetical system followed prior to 1918–19 by the Customs Department, it has been decided to insert, for the convenience of the public, a résumé of the classes, together with a slightly condensed Index of the items in alphabetical order.

* The cause of the great difference between the number of Vessels entered and cleared prior to 30th June, 1914, is principally due to the number which enter the State *via* South Africa, and on their outward voyage to Oversea Countries proceed *via* Suez Canal. † Six months ended 30th June. ‡ This and subsequent years terminate on 30th June.

No. 32.—Transactions of the Fremantle Harbour Trust and Bunbury Harbour Board during the undermentioned Periods.

NOTE.—The expenditure bases of the two Corporations are not the same. The Fremantle Harbour Trust employs all labour engaged in handling cargo on the wharves, whereas in the case of the Bunbury Harbour Board, general cargo is handled by the Railway Department for and on behalf of the Board and bulk cargo by the Stevedores, and no revenue (other than wharfage) is derived therefrom or expenditure thereon incurred. The sinking fund of both Corporations is invested at an approved rate of interest.

NOTE.—In addition to the above figures the following particulars were also obtained :—Acreage of Planted Forest Trees, 1,967 acres ; Lands farmed on the "Share System" : For Cultivation, 15,432 acres and dairying, 221 acres. * The reason why Returns relative to certain alienated and leased lands are not obtained under the Statistics Act is mainly to be found in the fact that it has proved impracticable for the Statistical Collectors to enforce the provisions of the Act in connection with lands which remain *entirely unimproved or unstocked*, and also in a lesser degree to the fact that small holdings under one acre in extent are exempted from supplying Returns. The Statistical returns are, however, collected from all lands over one acre in extent on which improvements have been effected, and upon which Agricultural or Pastoral pursuits are carried on, and, therefore, comprise all lands the obtaining of Returns from which would serve any practical purpose.

No. 12.—Acreage and Production of Wheat and Oats in each Statistical District, Sub-District, and Area for the Season ended 28th February, 1922.

NOTES.—1. *The rectangular areas* adopted, which are shown on the map attached to this part of the *Statistical Register*, are comprised within the sheet lines of the Standard Plans of the Survey Department. Being permanently fixed they are units that can be readily sub-divided and re-grouped at any future time into new districts and sub-districts without impairing their use for comparative purposes. Except where the areas are broken by the sea coast or other causes, the area numbers here printed in black type represent areas of 8,437½ square miles each, whilst those printed in ordinary type represent areas of 937½ square miles each, and the sub-area numbers marked A, B, C, or D, as the case may be, represent areas of 234⅜ square miles each. 2. Areas in parentheses and marked with an asterisk (*) are those for which the returns, if any, have been included in those of an adjacent area where the homestead is situated. In most instances, however, they are unoccupied as regards the headings shown. Areas marked (†) are portions of areas only.

NOTE.—This table has been compiled with the special object of showing the values of the importations into Western Australia in the past decade of such products of the soil and of live stock as might in the future be produced within the State, but are at present introduced to supply the deficiency in local production. It serves, in some respects, as a basis for calculations as to the market reasonably to be expected therein for home-grown products.
